Profile

A driven and motivated individual with a strong sense of creativity and confidence. Focused on building my career in development and actively seeking opportunities to join a dynamic and progressive organization where I can gain valuable work experience. Proficient in frontend development, backend technologies, and data structures and algorithms, with a keen interest in leveraging these skills to solve complex problems.

Education

B.Tech in Artificial Intelligence and Data Science

2021 – 2025

LNCT Group of Colleges, Bhopal

CGPA: 7.3

XII: 77%

Skills

Frontend: HTML, CSS, JavaScript, Tailwind CSS, React

Backend: Python, Flask, SQL

Tools: Figma, Microsoft Office

Cloud: AWS Cloud Foundations

Programming: Data Structures and Algorithms in C++

Soft Skills: Time Management, Teamwork, Communication, Problem Solving

Projects

Epicure Express – Food Delivery Website

Developed a responsive food delivery platform integrating machine learning for personalized restaurant recommendations. Utilized HTML, CSS, and JavaScript for the frontend and Python for machine learning predictions. Implemented seamless user navigation and efficient data handling for optimal user experience.

Donation Website (Google Solution Challenge)

Created a secure online donation platform with payment gateway integration, using Flask for backend processing and SQL for database management. Ensured smooth transactions, robust user authentication, and data security.

Potato Disease Classification Using CNN

Developed a convolutional neural network (CNN) model in Python and TensorFlow for the accurate classification of potato leaf diseases. This project aids farmers in early disease detection and efficient crop management, demonstrating high precision and scalability.

Apple Watch Store Landing Page

Designed and developed a visually appealing and responsive landing page for an Apple Watch store using Figma and HTML/CSS. Focused on creating an intuitive user interface and enhancing user engagement through aesthetic design and seamless navigation.

Internship

Front-end Web Development Intern

June 2024 – August 2024

IBM SkillsBuild Summer Internship Program, CSRBOX

Completed a 6-week internship focusing on front-end web development. Gained hands-on experience in HTML, CSS, JavaScript, and responsive design. Collaborated on real-world projects, creating user-friendly interfaces and improving problem-solving and design skills under expert mentorship.

Cisco Virtual Internship in Networking

Remote

Gained practical experience in networking concepts, including network configuration, security, and troubleshooting. Developed a strong understanding of networking fundamentals and protocols through hands-on labs and virtual simulations.

Certifications

- **Python Programming**
- **Introduction to MongoDB**
- **AWS Cloud Foundations**
